About **us**

Oman Aviation Academy is a premier aviation training academy dedicated to producing highly skilled and knowledgeable pilots.

Our state-of-the-art facilities, advanced simulation devices, and modern fleet of Diamond aircraft ensure a comprehensive and immersive learning experience. Our new, modern facility is recognized as one of the best in the region and the world. Located in the vibrant city of Suhar, we provide an ideal environment for personal and professional growth, supported by excellent weather conditions for year-round training. At OAA, we are committed to upholding the highest standards of aviation safety and quality.

02

Why **Oman Aviation Academy?**

OAA is the only Approved Training Organization in the region certified by the European Union Aviation Safety Agency (EASA) to deliver the Integrated Airline Transport Pilot Training program. We offer the best in aviation education for future pilots, operating the most technologically advanced aircraft with outstanding instructors and the latest technologies in flight training and modern world-class training facilities. Learn to fly in safe, uncluttered airspace with excellent weather conditions.

03

Integrated **Air Transport Pilot (A)**

The Integrated ATPL(A) course is designed to train aspiring pilots to the level of proficiency required to operate as a co-pilot on multi-crew, multi-engine aircraft in commercial air transport. Upon successful completion, trainees will obtain a Commercial Pilot License (CPL) with Instrument Rating (IR) for both single and multi-engine airplanes. The program provides in-depth training in VFR and IFR operations, preparing students to fly single-pilot aircraft before progressing to a Multi-Crew Cooperation (MCC) course is an essential step toward securing a First Officer role with an airline.

Our comprehensive program takes you from zero flight experience through ground school and advanced flight training, culminating in hands-on experience with multi-engine, multi-crew aircraft. By the end of the course, you will have the confidence, technical expertise, and professional readiness to become part of the next generation of world-class pilots.

04

Become **a pilot**
